

The Vedic Astrology Online Course

The ancient human beings worshipped planetary forces as gods. With that they showed their reverence for a cosmic intelligence and sanctified the laws that underlie all existence.

The planets can become symbols for the possibilities of spiritual development and for heightening your awareness. When we become familiar with those energies that are represented by them, we support the process of development of our consciousness. As soon as we succeed in that, we will not be spellbound anymore staring at positive or negative aspects of the planets. Instead, we will understand the pattern of our own life, embedded in a much bigger cosmic pattern. We are part of the whole and will view our destiny or the chances in our life not only in a personal way, but we will see astrology as a star gate that opens a new dimension and puts us on the road to cosmic life.

Astrology is the science of the possibilities in time; the Vedas describe it as Kala Vidya, the science of time. Vedic Astrology comprises the basic structure of the universe as well as its movements.

It's language is universal; it is the language of cosmic energy that can be used in all areas of life. According to great Indian sages, the rishis, the study of the planets and their relationships is a fundamental medium for attaining wisdom, for knowledge about the self, and for realizing the cosmic being within us.

Astrology helps us understand the course of our life and our character, as well as other people's life, and gives us methods to direct and transform the personality. This course gives you the fundamental knowledge of astrology.

You learn independently from time and place – with the valuable guidance of a competent teacher.

The relation of Ascendents – here the clear structure of SVA becomes visible

Our approach to the system is a simple, and yet very precise interpretation of horoscopes and divisional charts. While using only 20% of astrological methods and techniques of analysis, it quickly and effectively reveals 80-90% of the information contained in the horoscope. Marcus Schmiede has developed a course on Vedic Astrology based on a system's approach, which you can study online.
